#### Racial Discrimination

<https://www.webmd.com/lung/news/20201102/chinese-americans-face-covid-based-discrimination>

This pandemic is making our lives rougher each day especially how people from China and chinese descent are being affected by racial discrimination in America. Ex President Trump would blame China for the Coronavirus and how it spread all across the U.S. As some people and him would call it "China Virus". Half of parents and children took a survey and said "They experienced at least one person would direct discrimination related to the pandemic". Face masks were no longer required in Orange County but health still strongly recommended masks. What I'm saying is that everyone requires masks, everyone, no one should ever think that they can't get COVID-19.
